

F.E.A.R. First Encounter Assault Recon - Test Plan

1. Document control

Project	F.E.A.R. First Encounter Assault Recon
Version	1.0
Tester	Sioaan
Test Period	09.16.2026 - 09.19.2026
Game Version	1.08
Distribution	GOG
OS	Windows 11

2. Objective

Validate the functional behavior, gameplay systems, technical stability and compatibility of F.E.A.R. First Encounter Assault Recon within the defined scope.
Doing for my further career.

3. Test types

- Smoke
- Functional
- Exploratory
- Regression
- Compatibility
- Performance
- Stability
- UI
- Audio/visual
- Save/Load
- Boundary/edge-case testing

4. In scope

Gameplay, movement, combat, weapons, ammunition, slow motion, health/armor, AI, physics, collision, interactions, scripted events, UI/HUD, audio, graphics, save/load, checkpoints, input, performance, compatibility and stability.

5. Out of scope

- Multiplayer functionality is out of scope.
- The two expansions are out of scope.
- Community modifications are out of scope.

6. Test environment

Hardware

CPU	i5-14400F
GPU	RTX 3060 12 GB
RAM	16 GB DDR4
Storage	2 TB SSD
Monitor	24", 1920×1080
Refresh Rate	60 Hz
Audio device	High-Definition Audio Device
Input devices	Keyboard, Mouse

Software

OS	Windows 11
GPU driver	NVIDIA Game Ready Driver — 616.92
Game distribution	GOG
Gave version	1.08
Resolution	1920x1080
Mods / Patches	None
FPS limit	60 FPS

7. Test data

- Save slots:
 - Manual saves
 - Quick save
 - Save before combat
 - Save during combat
 - Save after combat
 - Save near checkpoint
 - Save before scripted event
 - Save after scripted event
- Difficulty levels:
 - Easy
 - Extreme
- Test locations:
 - Interval 01 - Inception - Point of Origin
 - Interval 02 - Initiation - First Encounter
 - Interval 03 - Escalation - Heavy Resistance
 - Interval 03 - Escalation - Bad Water
 - Interval 04 - Infiltration - LZ is Hot
 - Interval 05 - Extraction - Bishop
 - Interval 05 - Extraction - Blindside
 - Interval 06 - Interception - Sayonara, Sucker
 - Interval 06 - Interception - Afterimage
 - Interval 07 - Redirection - Alice Wade
 - Interval 08 - Desolation - Urban Decay
 - Interval 08 - Desolation - Point of Entry part 1
 - Interval 08 - Desolation - Point of Entry part 2
 - Interval 09 - Incursion - Bypass
 - Interval 10 - Revelation - The Vault
 - Interval 11 - Retaliation - Ground Zero
- Weapons:
 - Grenades
 - RPL Sub-Machinegun
 - G2A2 Assault Rifle

- 10mm HV Penetrator
 - AT-14 Pistol
 - Type-7 Particle Weapon
 - MOD-3 Multi-Rocket Launcher
 - MP-50 Repeating Cannon
- Enemy types:
 - Replica Recon Soldiers
 - Replica Fatigues Soldiers
 - Replica Urban Soldiers
 - Replica Desert Soldiers
 - Replica Tactical Soldiers
 - Replica Elite Soldiers
 - Replica Snipers
 - Replica Laser Elite Soldiers
 - Replica Heavy Armor
 - Replica Assassin
- Special edge-case setups:
 - Save during combat
 - Save immediately before death
 - Load during combat
 - Weapon switching during reload
 - Interaction at maximum distance
 - Pause/resume during scripted event
 - Alt+Tab during gameplay
 - Alt+Tab during loading

8. Entry criteria

- Game launches.
- Test environment is documented.
- Target build/version is recorded.
- Basic controls are functional.

9. Severity

Severity	Definition
Critical	Crash, corrupted save, blocker, or severe game-breaking defect
Major	Major gameplay/system failure with substantial impact
Minor	Defect with limited impact; workaround normally exists
Cosmetic	Visual/audio/text issue with little functional impact

10. Priority

Priority	Definition
High	Needs attention
Medium	Need be alerted
Low	Can be deferred

11. Risks

- Old game running on modern OS/hardware
- High-FPS behavior
- Resolution/aspect-ratio differences
- Save/configuration permission issues
- Driver/API differences
- Third-party compatibility layers

12. Test approach

Start with Smoke Testing. Then execute functional suites by feature. Record evidence for failures.

13. Deliverables

- Test cases
- Checklists
- Bug reports
- Performance report
- Compatibility report
- Regression report
- Final QA report
